

Policies

Take Control of Your Content and Comply with Organizational Requirements

Maintaining consistent branding and avoiding content errors can be extremely challenging as your website evolves.

Having content policies in place is an effective way to optimize your online presence, improve your website's quality, and ensure compliance with organizational standards. Monsido's Policy Module allows you to take control of your content and establish website standards easily and quickly.

Choose relevant policies from our pre-set policy library or create your own specialized policies that reflect the particular needs of your organization.

Key Features

-  **Ensure Consistent Branding**
Make sure that all your online content meets with your branding style.
-  **Comply with Organizational Regulations and Standards**
Ensure you are meeting with the standards and regulations that apply to your organization.
-  **Maintain Accurate Records**
Identify inaccurate and outdated information. E.g. Create a policy to keep track of current and former employees.
-  **Find Specific Terms and Phrases**
Save time and effort by locating terms and phrases instantly.
-  **Strengthen Your Security and Data Privacy**
Create policies to make your site's privacy and security more robust. E.g. Create a policy to ensure certain information is never made publicly visible.
-  **Create Customized Policies**
Create policies tailored to your organization's particular needs and standards. E.g. Create a policy to identify any mentions of former employees.
-  **Apply Multiple Rules to Policies**
There is no limit to the number of rules you can add to a policy, meaning scans can be customized to crawl for results defined by multiple search factors.

About Monsido

Monsido is a fast-growing software company founded in 2014 that provides a one-stop web governance solution designed to give website visitors a superior browsing experience. Our time-saving auditing tool provides accurate and insightful information that helps organizations work with confidence to identify accessibility and quality assurance issues. This enables them to optimize their online presence and ensure compliance with legal requirements. Monsido has offices in the United States, Australia, and Denmark. For more information, visit www.monsido.com

Pre-Set Policy Library

Monsido comes with a number of preset policy templates that can be ordered by vertical and which give you a wide range of custom content searches to choose from. From date format to image size, to specific terms, you can apply as many of these rules as you wish to a domain.

Create Your Own Policies

Create policies tailored to your organization's unique requirements and establish rules to ensure consistency and quality across all of your content.

Manage Your Content

Save time and effort by instantly identifying issues such as missized images or wrongly formatted dates. Fine-tune your content and achieve the level of quality you've always wanted.

Meet with Organizational Standards

Stay alert to content that is inaccurate or outdated and create regulatory policies to ensure that you are in compliance with the specific laws, rules, and standards that apply to your organization, such as adhering to government style guides and meeting with industry specific regulations.

Keep Your Branding Consistent

Effortlessly maintain your branding and ensure that essential elements such as missing trademark symbols are never overlooked. Policies can be created to search through links, documents, HTML pages, or all assets (HTML and documents) to ensure they are error-free.
