

SNIPPcheck!

RECEIPT & TRANSACTION VALIDATION PLATFORM

Validate Purchase & Non-Purchase Transactions

Snipp's receipt processing platform is the market leader in purchase/non-purchase validation for customer engagement marketing. We power programs designed to engage consumers through the entire path to purchase - in-store, at home and online. SnippCheck helps brands scale activations and reward consumers based on any Purchase (dollar value spend, number of products purchased or even a sum of purchases over time) or Non-Purchase (surveys, social interactions etc.) transactions.

SnippCheck enables brands to tap into **unprecedented consumer purchase and behavioral data** captured in POS devices and tied to in-store promotions - contests, promotions, sweepstakes, rebates and loyalty programs. We capture zero-party data in real time and build proprietary data sets to drive personalization and engagement.

ANY PROGRAM, ANYWHERE, ANYTIME

- Gift With Purchase
- Instant Win
- Sweepstakes
- Gamification
- Rewards
- Digital Rebates
- Punch-card
- Social
- Text To Win
- Pin On Pack
