**Who thinks their data insights are perfect?**

**i** Start presenting to display the poll results on this slide.

## Question 1

**Data inefficiencies: How do you address and optimise data inefficiencies, particularly when comparing the challenges of starting from scratch versus working within a legacy organisation?**

## Question 2

**What are the key steps and strategies to building a high-performing demand generation engine, and how do you overcome the common marketing challenges along the way?**

### Question 3

**What are the most valuable data points marketers should focus on to drive effective demand generation strategies?**

Q&A
