

Keynote Presentation | **[Video-Driven Content]** Surviving the GTM Crisis: Leveraging Video and AI for Customer Loyalty

NOHAR ZMORA

Senior Vice President, Head of Marketing
Kaltura

Surviving the GTM crisis:

Leveraging video and AI for customer loyalty

Nohar Zmora

April 2025

Thank you for joining me!

Nohar Zmora

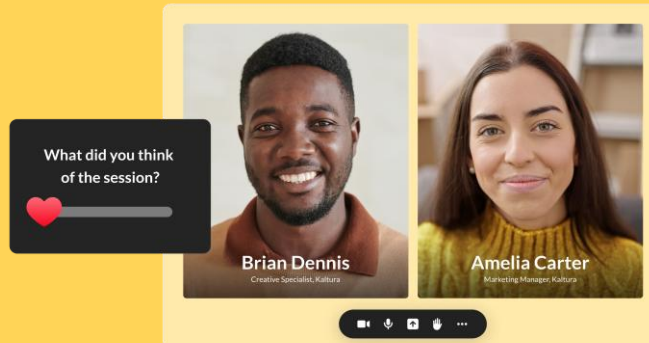

SVP Head of Marketing, Kaltura

Fun facts:

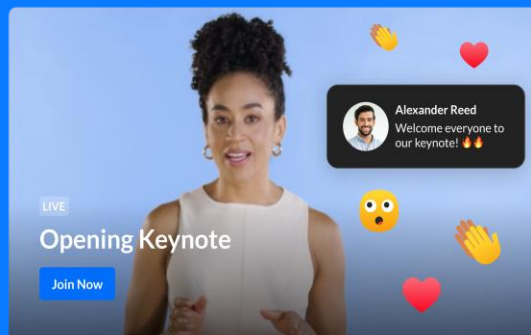

- Lives with my partner Yair and our 4 kids
- Loves skiing in winter and scuba diving in summer
- Crazy about internet memes :)

AI-powered video marketing flywheel to boost your reach, engagement, first-party data, and pipeline

Webinars

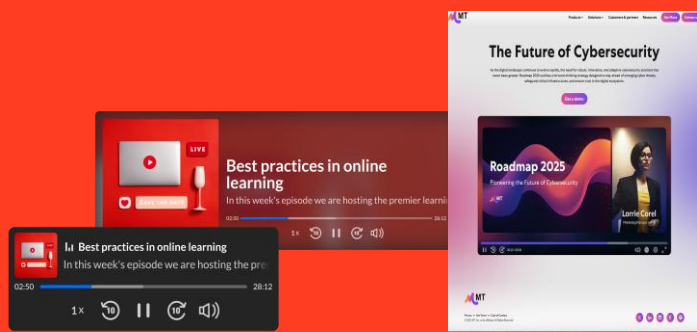

Virtual & hybrid events

Community hubs & customer academies

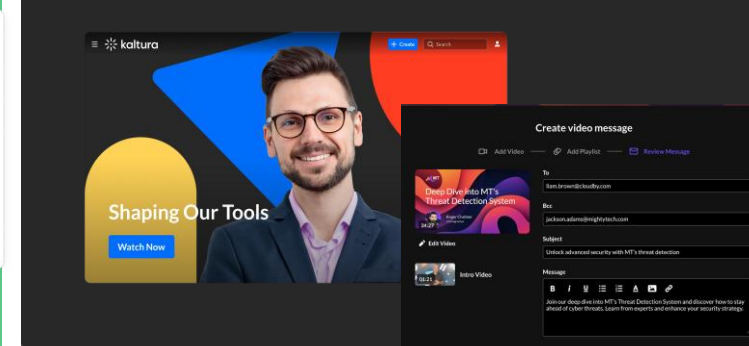

Podcasts & video web experiences & Brand TV streaming

Content intelligence & repurposing & personalized content discovery paths

Sales prospecting studio

Thousands of teams from top organizations trust Kaltura

Game on!

A photograph of a large white airplane, likely a Star Alliance aircraft, on a tarmac. The aircraft's nose and cockpit are visible. In the foreground, a small blue bicycle is parked on the tarmac next to a yellow ground support vehicle. The text "Marketing Plan" is overlaid on the aircraft's fuselage, and "The budget" is overlaid near the bicycle.

Marketing Plan

When everyone gives their opinion on a marketing campaign:

When the webinar is a sales pitch...

There's a serious GTM crisis

- **Pipeline generation dropped by 47%**
- **A shortfall of 51% in pipeline generated from organic and paid channels**
- **Win rates have dropped from 30% to less than 20%**
- **The number of stakeholders within a deal's buying committee increased from 5-6 to 10**
- **Sales cycles lengthened by 32%**
- **Only 29% of salespeople meet their quota**
- **Cold outreach is a fraction as effective as it was before. 10/8/6/4/2 response rates are now 5/4/3/2/1**
- **30% search traffic decline**

The B2B marketing playbook is broken

- CAC is skyrocketing
- Email deliverability is crashing
- SDR prospecting and email nurturing audience fatigue
- Audiences are bombarded with mediocre, 'cookie-cutter' content; gating content is losing effectiveness
- The new buyer journey (anonymous self-served research + free trial – want to try the product and not start by talking to a sales person)
- Attribution is failing – inaccurate findings + undermines the alignment and collaboration needed between sales and marketing

There's a GTM crisis

it's time to shift focus

- Retention and expansion are the new priority
- Customer marketing and enablement is the current imperative

The highest growth companies right now are investing in curating customer engagement and transforming it into first party data and pipeline conversion through intelligent marketing flywheel

Mastering the Video-first AI-enabled Marketing Flywheel

B2B buyers engage with **13**
pieces of content before
making a buying decision

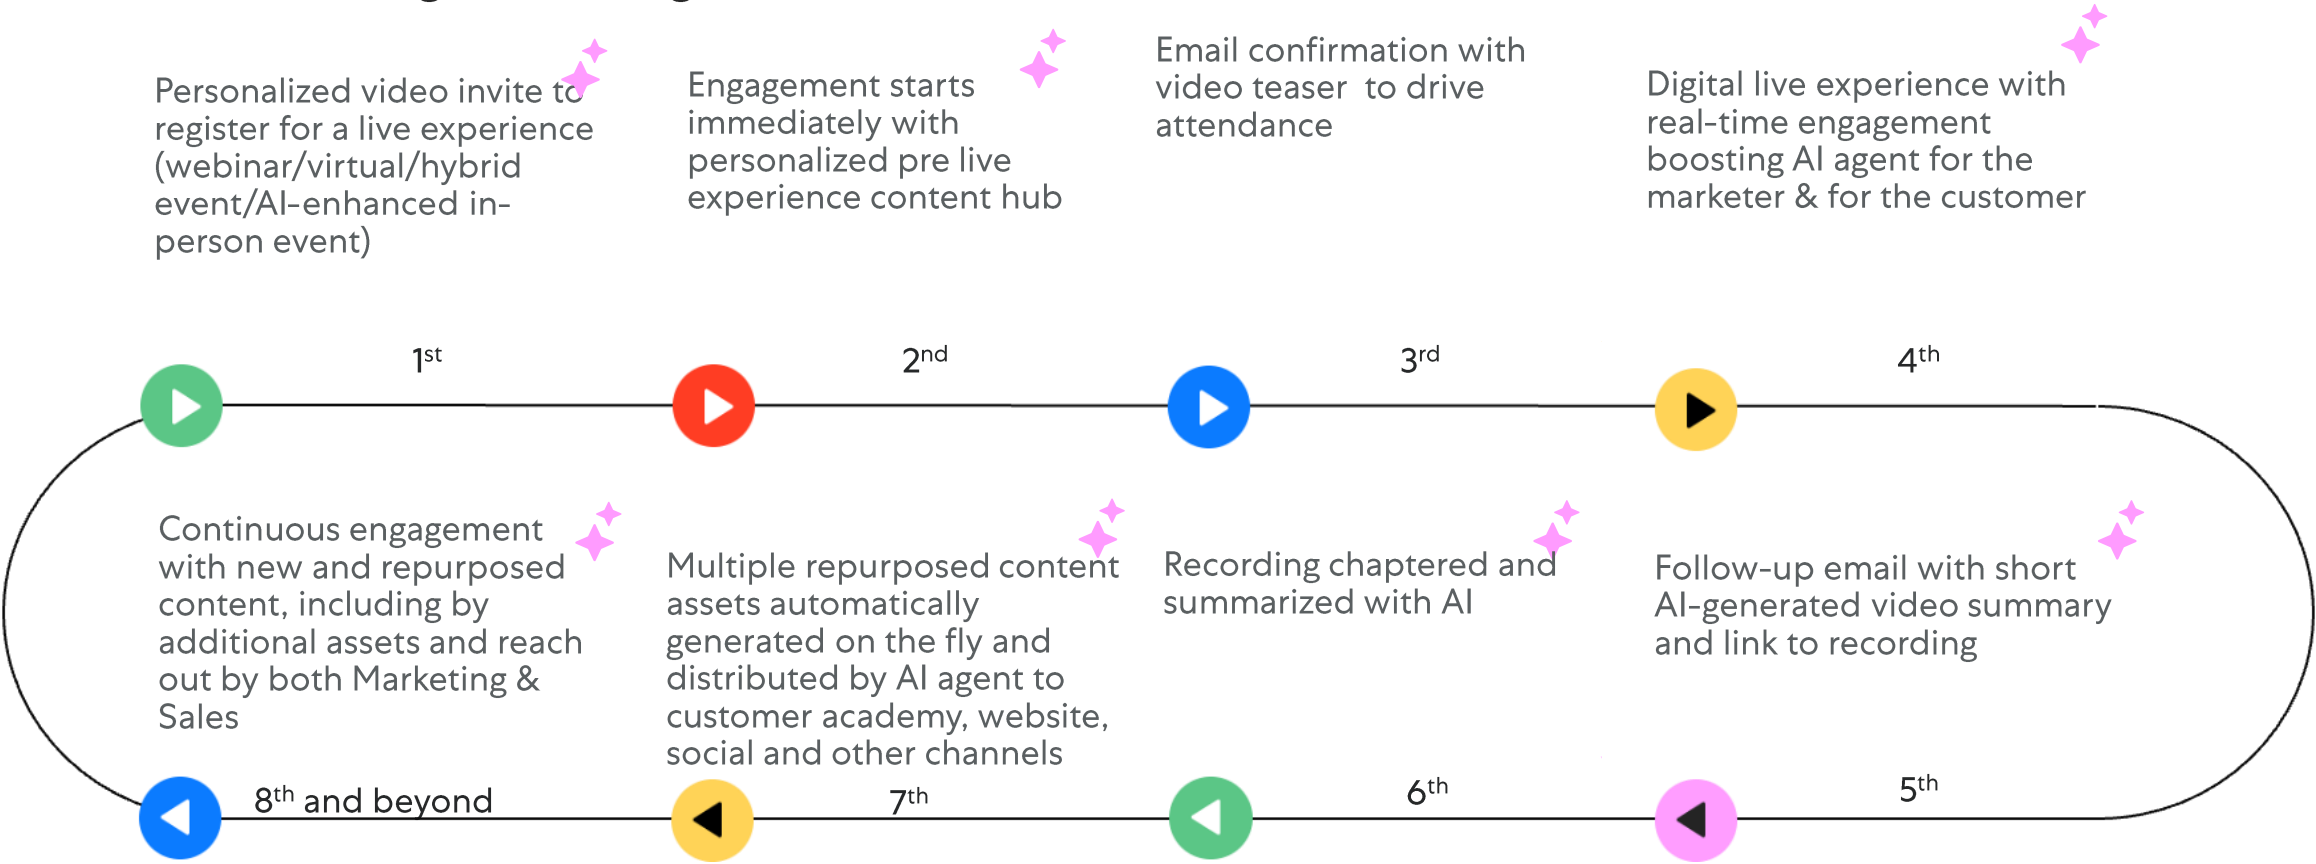

&

CMOs chose video marketing
as their highest ranked
channel, delivering more value
and impact across all customer
journey stages

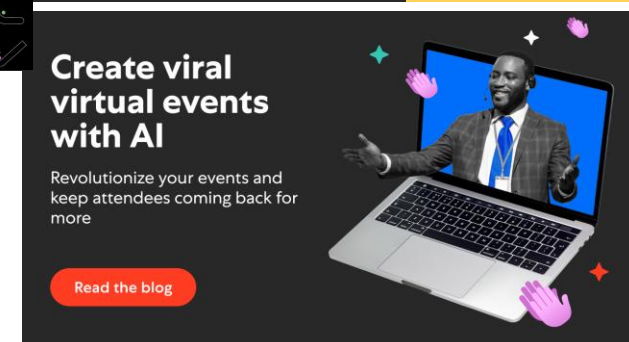

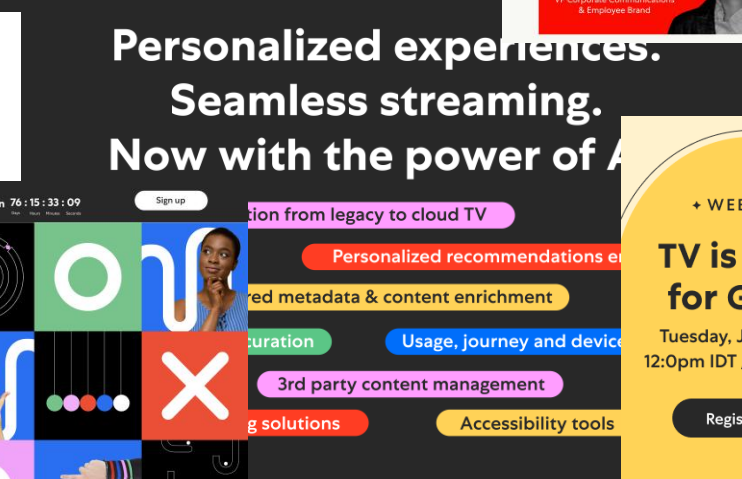

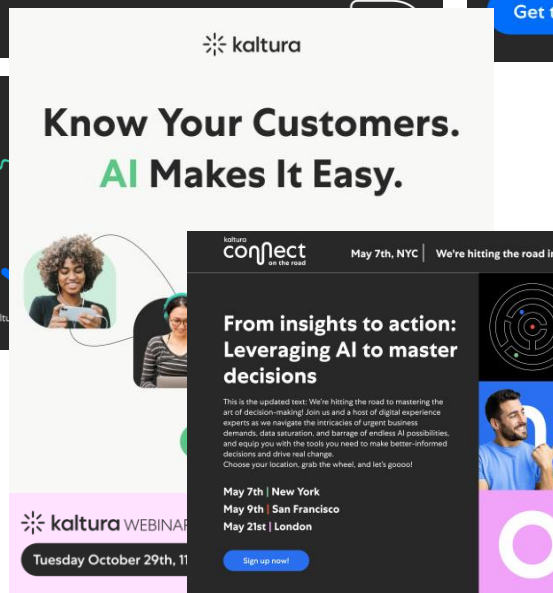

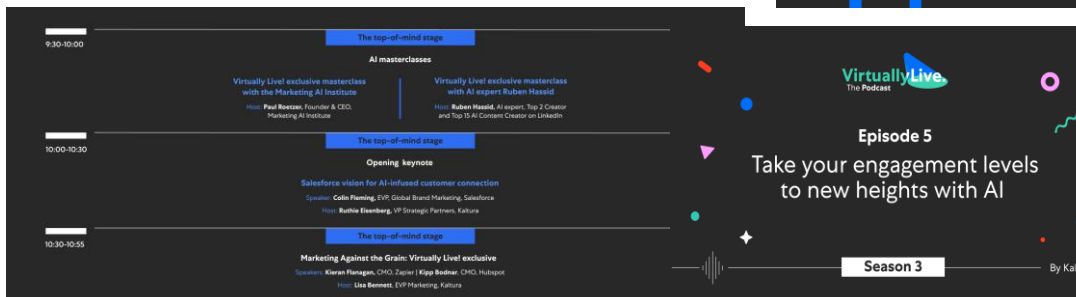

Rethinking video as a retention tool

Create better, more personalized video experiences at scale to drive lasting customer growth

All supported by powerful AI Content intelligence & Repurposing lab and a ecosystem of AI agents

At Kaltura, we practice what we preach

The VirtualyLive exclusive AI masterclass with Ruben Hensli

on November 2023

— Sam Altman, CEO, OpenAI

“Software that can think and learn will do more and more of the work that people now do... This technological revolution is unstoppable. And a recursive loop of innovation, as these smart machines themselves help us make smarter machines, will accelerate the revolution's pace.”

“The coming change will center around the most impressive of our capabilities: the phenomenal ability to think, create, understand, and reason. To the three great technological revolutions—the agricultural, the industrial, and the computational—we will add a fourth: the AI revolution.”

Sam Altman, CEO, OpenAI

- #### Steps for your first webinar:
1. Click on Create
 2. Use the AI assistant to generate your webinar title & description
 3. Choose your webinar schedule. You can use the AI assistant to generate a suggested agenda for your webinar.
 4. Go to the Branding tab and customize the banner & theme (upload your own image or choose from the link we provided in the chat)
 5. Go to the People > Speakers tab and invite yourself. Don't forget to upload your image!
 6. Click on Visit Webinar Site to see your landing page and webinar site and session

The agenda

Keep in (your human) mind...

- Thought leadership**
What unique insights or perspectives can the company offer, and will position it as subject-matter expert?
- Session development**
What will be a reasonable mix for the sessions types? Which should open and close the event?
- Speaker context**
What is the speaker's history, reputation and presentation style?

Community building = Real business impact

Salesforce boosted engagement by **536%** leveraging the right technology in their flagship events and online streaming platform.

Making your flywheel a qualification & conversion machine

- Uncovering strong indicative engagement signals to react in real time and to improve follow up personalization:
- **Zero-party data-** registrations, polls, surveys...
- **First-party data** - on-demand views, repeat visits, engagement metrics...
- Language and tone of voice were found to be the most paramount elements to create a subjective “personal feel” for content consumers. Leveraging AI agents for scaling the localization and adaptation of content is changing the game.

How AWS APJ overcomes language barriers to double down on customer loyalty

AWS expands their reach across APJ with summits in:

- Korean
- Japanese
- Vietnamese
- Thai
- Bahasa Indonesia

Event stats:

- Up to 8 hours long
- Minimum of 150,000 registrants
- With 50,000 registering on the day of

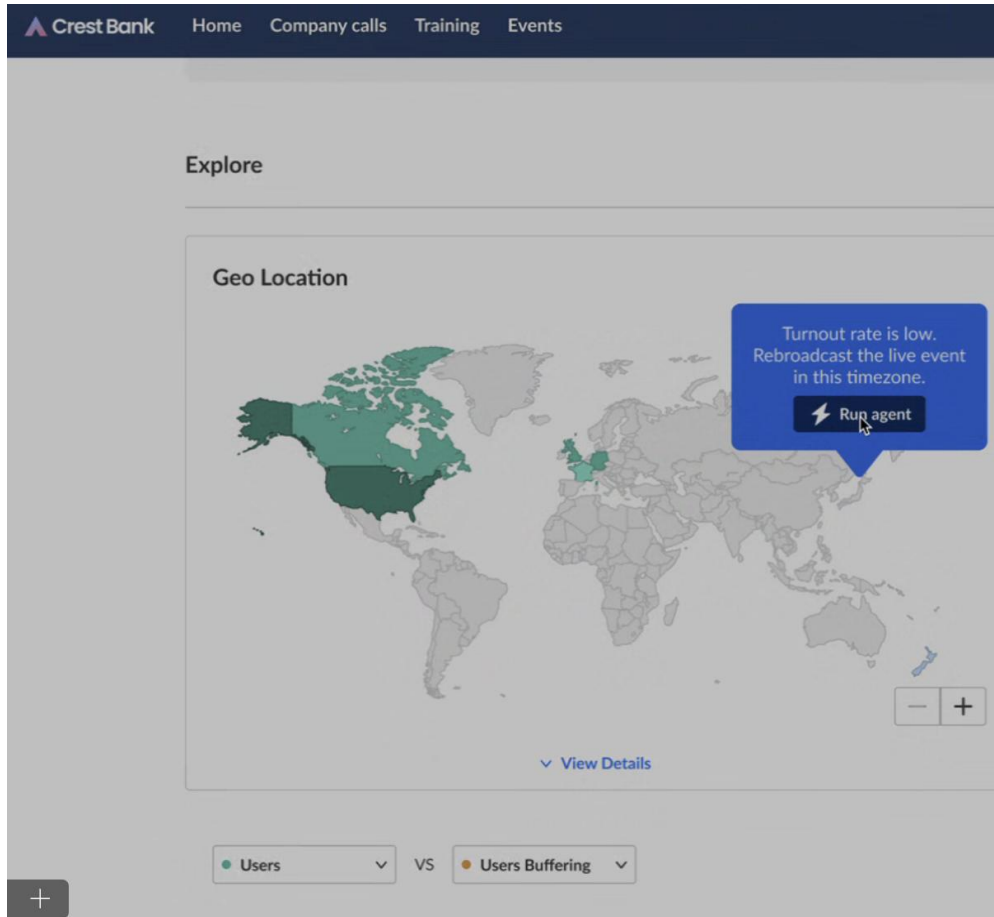

Our ability to provide and accommodate so many languages in a seamless, stable and scalable way **directly** builds customer loyalty.

Kaltura provides:

- Entire event websites in those languages (every word!)
- Automatic high-quality translations and captions
- Simulive, 'follow-the-sun' broadcasts
- On-demand post event content in the language the user registered in

The future with Kaltura

Follow-the-Sun Rebroadcast Workflow

This workflow ensures global accessibility by automating the rebroadcast of live sessions across time zones. It includes AI-powered captions and translations, scheduling pre-recorded sessions for relevant regions, and sending email invitations to employees in their respective time zones.

OVERVIEW

- Trigger**
Initiate the workflow when the live broadcast ends
- Localize the session content**
Localize the session including live captions, interaction translation (Polls, announcements and emails).
- Schedule a pre-recorded live session**
Schedule a live session in the relevant timezone and publish it in the **Company call** channel
- Send a email invitation**
Send an invitation to employees in the relevant timezone.

The AI-powered retention & expansion playbook:

3 Immediate next steps:

- Start tracking, collecting and analyzing zero and first-party intent data
- Rethink how you make your content global
 - Use moderation agents; look for cultural pitfalls
- Build always-on engagement hubs for community and retention

AI isn't a magic fix—it's a tool that amplifies a strong retention strategy!

And lots of memes for you all!
